## PEOPLE SAY ABOUT ME

---

"Damien has a very analytical mind and is able to take ownership for complex issues where others would probably run away."

*Patrice De Cafmeyer*

---

"Damien has a very analytical mind. He is capable like few in mastering many issues at the same time and can make complex problems easy to understand for both business people and tech people. He is himself a rare combination of a highly skilled technician as well as a business person. I will be looking forward to be working with Damien again anytime."

*Klaus Kristensen*

---

"Extremely performing consultant in the risk management domain. The best SAS programmer I know."

*Pascal Berten*
